

UNIT GRAPHIC ORGANIZER

SUBJECT: SCIENCE AND SOCIAL STUDIES UNIT: 4

COURSE: TRANSITION

TEACHER: Yeimy Lorena Cárdenas Perdomo

DATE: September 6th 2021

TITLE:

PHYSICAL SCIENCE

THROUGHLINES:

1. How we can make some objects?
2. Why do you think we perceive things around us?

GENERATIVE TOPIC

FIVE SENSE POP ROCKS

UNDERSTANDING GOALS:

The students will identify the differences between natural objects and man-made objects, through the manipulation of real objects and the watching of videos to gain a better understanding of them in their environment.

The student will explore their five senses with textures, flavors, smells, among others, by classifying them in the development of activities proposed during the classes.

	UNDERSTANDING PERFORMANCES	TIME	ASSESSMENT	
	ACTIONS		WAYS	CRITERIA
Exploration Stage	<p>To identify the natural objects and man-made objects</p> <p>To learn vocabulary about natural objects and man-made objects</p> <p>To compare the differences between natural objects and man-made objects</p> <p>To introduce the five senses</p>	2 weeks	<p>Watching a video about the natural and man-made created (https://www.youtube.com/watch?v=7COIUtLJSVQ) then we will observe the house or room and identify the man-made or natural objects.</p> <p>Classifying the pictures about man-made and natural objects and say the differences between them.</p> <p>Watching a video about five senses (https://www.youtube.com/watch?v=q1xNuU7gaAQ) then we will talk about how to take care of our senses</p> <p>Synthesis Project: The teacher will explain the project "5 SENSES POP ROCKS" and make conversations about different snacks in order to describe how items, taste, look, smell.</p>	<p>Observe the world where you live and the forms that surround them.</p> <p>Compare different structures and processes, deduce Similarities and differences between them.</p>
Guided Stage	<p>To using the five senses</p> <p>To show the different technological devices.</p> <p>To learn the use of some technological devices.</p>	4 weeks	<p>Playing with objects perceived with five senses.</p> <p>Preparing a show and tell of the senses where we can show and talk about our favourite things to experience with each sense</p> <p>Observing images of technological devices that we currently use and their correct use</p> <p>Using different pictures about the technological devices that are used today.</p> <p>Working the activities about the topics in the guidebook.</p> <p>Synthesis Project: "5 SENSES POP ROCKS" We will use pop rocks candy to explore our five senses, identifying texture, smell, taste.</p>	<p>Express the ideas creatively</p> <p>Socialize their ideas and observations using the appropriate language for the area.</p>
Learning Evidence	<p>Synthesis Project: "A special date!"</p>	2 weeks	<p>Synthesis Project: "A special date!"</p> <p>We are going to use our senses to identify the texture, taste, smell of the pop rocks candy and we will use a worksheet to compare and answer some questions.</p>	<p>Communicates in various ways the process of inquiry and the results obtained.</p> <p>Applies new concepts in the development of projects.</p>
